

Module name- ASME

Module Head - Inzamum Hussain Mazumder  
Triranga Bikrom Borah

Event Name - Draft Ritz 4.0

Event Description - Participants will be provided with a problem statement on the day of the event and they need to provide solutions to that problem statement in the form of tool or machine prototype within 3 hours from the announcement of the problem statement. Participants need to give the solution in pdf format including a detailed explanation of the tool or machine prototype along with a design of the prototype in solidworks(or any open source software) format or a drawing description of the prototype with at least the required views.

Rules- 1. They can participate alone or in teams of two.  
2. Judgement will be done on the basis of whose idea was innovative and practical enough to apply.

Organisers - Chandraa Gogoi (6901459258)
